In the Matter of Finest Wool Batting Corp., a Corporation, and Sid L. August, and Joseph Shlonkowitz, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a Brooklyn, N.Y., manufacturer with violating the Wool Products Labeling Act by labeling as "100% reprocessed wool" and "80% reused wool, 20% other fibers", wool battings which respectively contained substantial quantities of non-woolen fibers, and less than 80% reused wool; and failing to comply in other respects with the provisions of the Act.

The case having been submitted for decision upon stipulated facts, the hearing examiner made his initial decision including said stipulation as findings of fact, conclusions and order to cease and desist which, after modification by the Commission, became on October 21 the decision of the Commission.

The order to cease and desist as modified is as follows:

It is ordered, That respondent, Finest Wool Batting Corp., a corporation, and its officers, and Sid L. August and Joseph Shlonkowitz, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of wool batting or other "wool products," as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool," "reprocessed wool," or "reused wool," do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or

amount of the constituent fibers included therein.

2. Failing to affix labels to such products showing each element of information required to be disclosed by section 4(a) (2) of the Wool Products Labeling Act of 1939.

By "Final Order", report of compliance was required as follows:

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist contained in the initial decision as modified.

Issued: October 21, 1959.

Subpart—Misbranding or mislabeling: § 13.1190 Composition: Wool Products Labeling Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 Formal regulatory and statutory requirements: Wool Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2-5, 54 Stat. 1128-1130; 15 U.S.C. 45, 68-68(c)) [Cease and desist order, United Felt Company et al., Chicago, Ill., Docket 7132, Oct. 21, 1959]

In the Matter of United Felt Company, a Corporation, and Arnold Willis and Max Sussman, Individually and as Officers of Said Corporation

This case was heard by a hearing examiner on the complaint of the Commission charging a Chicago manufacturer with violating the Wool Product Labeling Act by labeling as "70% reprocessed wool, 30% man-made fibers" and as "95% reprocessed wool, 5% other fibers", rolled battings which in each instance contained substantially less wool and more non-woolen fibers than was thus indicated; and by failing to comply in other respects with the labeling provisions of the Act.

After the usual proceedings, the hearing examiner in an initial decision held that jurisdiction over respondents had not been established and dismissed the complaint. Granting complaint counsel's appeal therefrom, the Commission made its own findings and conclusions, and on October 21 issued its order to cease and desist.

The order to cease and desist is as follows:

It is ordered, That respondent United Felt Company, a corporation, and its officers, and Arnold Willis and Max Suss-

man, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation, or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of wool batting or other "wool products", as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool", "reprocessed wool", or "reused wool", do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein:

2. Failing to affix labels to such products showing each element of information required to be disclosed by section (2) of the Wool Products Labeling Act of 1939.

It is further ordered, That the charges of the complaint contained in Paragraphs Seven and Eight thereof be, and they hereby are, dismissed.

By "Findings As To the Facts, Conclusions and Order", compliance was required as follows:

It is further ordered, That respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 21, 1959.

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Ayiation Agency

SUBCHAPTER C-AIRCRAFT REGULATIONS

[Reg. Docket No. 214; Amdt. 69]

PART 507—AIRWORTHINESS DIRECTIVES

Vickers Viscount 745D and 810 Aircraft

Engineering evaluation of modified parts shows that the approved service life of the clutch drive shaft and inspection period for modified flap motors on Vickers Viscount 745D and 810 aircraft can be extended beyond the service life permitted in airworthiness directive 59-12-10 (24 F.R. 5290). Accordingly, a new directive is issued to reflect the latest evaluation and supersede AD 59-12-10.

Since this amendment constitutes a relaxation, the Administrator finds that notice and public procedure hereon are unnecessary and the amendment may be made effective upon publication in the FEDERAL REGISTER.

In consideration of the foregoing § 507.10(a), (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

59-26-3 Vickers. Applies to all Viscount 745D and 810 Series Aircraft. Compliance required as indicated.

Flap Motors P/N C.9601 and C.9601/1. Excessive wear has occurred on the flap motor clutch drive shaft splines P/N N117500, at the point of engagement with the clutch shaft, P/N N98825, which was revealed by

failure of the flaps to operate electrically. In addition, failures have occurred in the internal clutch drive shaft, P/N N117500, at a point adjacent to the splines at the clutch shaft end, P/N N98825. This type of failure does not affect the normal operation of the flap gearbox assembly and is revealed only during overhaul. In the event of fail-ure of the clutch drive shaft, flap "blow" back" can occur under flap selection condi-tions creating a flight hazard.

(a) Inspections. Flap motor assemblies must be inspected in accordance with the "inspection procedure" detailed in PTL 183 (700 Series) and PTL 61 (800/810 Series) as

follows:

- (1) Flap motors, P/N C.9601 (i.e. those embodying clutch drive shaft P/N N117500), at periods not exceeding 1,000 hours time in service.
 (2) Flap motors, P/N C.9601/1 (i.e. those
- embodying clutch drive shaft, P/N N145421), at periods not exceeding 2,000 flights.
- (b) Approved life. The clutch drive shafts are now subject to the following maximum lives:
- (1) Clutch drive shaft, P/N N117500-4,000 hours time in service.
- (2) Clutch drive shaft, P/N N145421—4,000 flights. These shafts are to be replaced within the above periods of approved life, irrespective of the results of the dimensional wear test given under the "inspection procedure" in the respective PTL's mentioned

It will be necessary for those operators who do not now do so to maintain records from which the number of flights (ground to air to ground cycles) can be ascertained for

compliance with items (a) (2) and (b) (2). (Vickers-Armstrongs PTL 183, issue 4, Modification D.2766 (700 Series), PTL 61, issue 4, Modification FG.1294 (800/810 Series) and Rotax Modification No. 3017C cover this subject.)

This supersedes AD 59-12-10.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on December 21, 1959.

PART 744—POLICIES AND PRO-CEDURES FOR THE PROTECTION OF PROPRIETARY RIGHTS IN TECHNICAL INFORMATION PRO-POSED FOR RELEASE TO FOREIGN **GOVERNMENTS**

Revision of Part

Scope and purpose. Part 744 is revised in accordance with recently revised Departmental regulations. See also §§ 744.1 and 744.2 below.

Part 744 is revised to read as follows:

Sec.

744.1 Purpose.

744.2Scope. 744.3 Background.

744.4 Policy.

744.5

Release procedures.
Authorization for release without 744.6 consent of the owner.

AUTHORITY: §§ 744.1 to 744.8 issued under secs. 5031, 6011, 70A Stat. 279, as amended; 10 U.S.C. 5031, 6011. Interpret or apply the Mutual Security Act of 1954 as amended, 22 U.S.C. 1750 et seq.

§ 744.1 Purpose.

This part implements Part 153 of this title (24 F.R. 2490) and the Technical Property Interchange Agreements between the United States and foreign governments which agreements are designed to facilitate the interchange of patent rights and technical information for defense purposes.

§ 744.2 Scope.

This part applies to all Navy activities and personnel engaged in any interchange for defense purposes between the United States Government and foreign governments under the Mutual Security Act of 1954, as amended (22 U.S.C. 1750 et seq.) involving technical information and associated patent and proprietary rights. The policies prescribed in this part apply to unclassified as well as classified information owned by the United States Government or privately owned. This part does not apply to patents, patent applications and technical information in the field of atomic energy.

§ 744.3 Background.

(a) Pursuant to the provisions of the Mutual Security Act of 1954, as amended. and of predecessor legislation superseded by that Act, the United States has entered into agreements for the Interchange of Patent Rights and Technical Information to further the common defense of the United States and friendly nations. Agreements are now in effect with Australia, Belgium, France, the Federal Republic of Germany, Greece, Italy, Japan, the Netherlands, Norway, Turkey, and the United Kingdom. These

agreements, among other things, are intended to facilitate the interchange of technical information by:

- (1) Recognizing the rights of owners of such technical information disclosed by the United States to foreign governments;
 (2) Assuring owners that foreign gov-
- ernments will treat such technical information as disclosed in confidence and that their rights will not be prejudiced;
- (3) Recognizing the right of owners to receive compensation if damage to the owners results from an unauthorized disclosure or use of such information; and
- (4) Providing that each government is entitled to use for defense purposes without cost any invention which the other government (including government corporations) owns or to which it has the right to grant a license to use, except to the extent that there may be liability to any private owner of an interest in the invention.
- (b) The Mutual Security Act of 1954 as amended permits among other things the supply of "services" to eligible na-tions and international organizations. "Services" are defined in the Act as including any service, repair, training of personnel, or technical or other assistance or information necessary to effectuate the purposes of the Mutual Security Program. The Act also provides a legal remedy for owners of inventions or technical information for unauthorized use of inventions or damage resulting from disclosure of information by reason of acts of the United-States or its officers or employees in connection with the furtherance of the purposes of the Act and authorizes settlement and compromise of claims prior to suit against the United States. The Act and the Technical Interchange agreements further provide that commercial relationships are to be used whenever appropriate and to the maximum extent feasible for the exchange of technical information known or believed to be privately owned in order to encourage the participation of private enterprise in the Mutual Security Program, to relieve the Department of Defense of administative burdens and to reduce the costs to the United States of such interchanges unless the use of commercial relationships might impair the defense program or violate security requirements.
- (c) Technical information that is privately owned is considered for the purpose of this part as information originated by or peculiarly within the knowledge of the owner thereof and those in privity with him, which is not available to the public and is subject to protection as property under recognized legal principles.

§ 744.4 Policy.

It is the policy of the Department of the Navy to encourage and facilitate the international interchange of patent rights and technical information to further the common defense of the United States and friendly nations. In carrying out this policy classified military information shall be released only through consistent with the National Disclosure Policy, or when approved as an exception to that policy. Technical information which is known or believed to be privately owned shall normally be released through the medium of existing commercial relationships or commercial relationships to be established except that use of government channels is authorized for releases permitted under §§ 744.5 and 744.6.

§ 744.5 Release procedures.

(a) Technical information which is wholly owned by the United States Government may be released to foreign governments when consistent with the National Disclosure Policy, or when approved as an exception to that policy.

(b) Technical information which is known or believed to be privately owned may be released to foreign governments if any one of the following conditions is met:

(1) The owner expressly consents to the proposed release;

(2) The United States, by contract or otherwise; has acquired or is entitled to acquire, the information under circumstances which permit the proposed release; or

(3) The Secretary of the Navy or his. designee determines, under the authority of the Mutual Security Act of 1954, as amended, that:

(i) The exigencies of the requirement. for release to further the common defense do not allow sufficient time to obtain the consent of the owner; or

(ii) The owner refuses consent and the best interests of the United States would be served by the release.

(c) The release to foreign governments of technical information which is known or believed to be privately owned shall normally be in accord with the following two step procedure:

(1) Release for information only.

(2) Permission for manufacture, or use, for defense purposes.

(d) All technical information, whether privately owned or government owned, released to foreign governments for any purpose shall be marked with the following restrictions:

(1) This information is accepted for defense purposes only;

(2) This information shall be accorded substantially the same degree of security protection as such information has in the United States.

(3) This information shall not be disclosed to another country without the consent of the United States.

(e) When technical information which might be privately owned is released for information only, the restrictive marking shall also contain these additional provisions:

(1) This information is accepted upon the understanding that it might be privately owned.

(2) This information is accepted solely for the purpose of information and shall accordingly be treated as disclosed in confidence. The recipient government shall use its best endeavors to insure that the information is not dealt with in any manner likely to prejudice the government channels and only when rights of the private owner thereof to

obtain patent or other like statutory protection therefor.

(3) The recipient government shall obtain the consent of the United States if it desires that this information be made available for manufacture, or use, for defense purposes.
(f) When technical information which

is known or believed to be privately owned is released by authority of this part the owner, if known, shall be furnished:

(1) Notice of the release;(2) The identity of the recipient, if not contrary to security regulations;

(3) Notice that the recipient has been advised that the information might be privately owned; and

(4) Notice of the restrictions to which the release is subject.

§ 744.6 Authorization for release without consent of the owner.

(a) Military equipment including the information essential for its operation, maintenance and repair and technical information, known or claimed to be proprietary, which is being considered for release in accordance with § 744.5 (b) (3), may be released when the Chief of Naval Operations or his designee or a bureau chief or deputy bureau chief determines under the authority of the Act that such action clearly warrants the assumption of financial liability that may be incurred and there is no acceptable substitute equipment or information for which consent to release is obtainable or which is not proprietary.

(b) Where any technical information is released in accordance with this section, such release shall be subject to the conditions of release set forth in

§ 744.5(d).

(c) Military equipment, including the information essential for its operation, maintenance, and repair, known or claimed to be privately owned and for which consent for release cannot be obtained may be furnished to foreign governments in accord with § 744.5(b) (3) without further legal authorization, provided such release is made pursuant to the grant aid provisions of the Mutual Security Act of 1954, as amended, and provided further, there is no acceptable substitute equipment or information for which consent for release is obtainable or which is not proprietary.

§ 744.7 Problems and reports.

All patent problems involving technical information known or alleged to be proprietary arising in connection with the release of technical information to foreign governments should be referred to appropriate Navy patent personnel. All releases of technical information to foreign governments where consent of the owner could not be obtained and all claims for compensation for the unauthorized use of inventions or unauthorized disclosure or use of technical information will be reported to the Chief of Naval Research for such action as may be appropriate.

§ 744.8 Action.

The Chief of Naval Operations, the Commandant of the Marine Corps, and the chiefs of bureaus and offices. Navy Department, are requested to review existing directives, instructions and regulations governing the release of technical information to foreign governments. and where necessary effect appropriate changes to insure that they conform with the policy and procedures stated in

By direction of the Secretary of the Navy.

act. Petitions or motions for dismissal shall be filed in duplicate in the office where the contest is pending and proceedings thereon will be under the jurisdiction of the Hearing Examiner who shall render decisions thereon in accordance with the rules of practice.

(c) As provided in the act, if during any such proceeding a party thereto files a waiver of his rights under the lease to drill or to assign his interest thereunder or if his rights are suspended by order of the Secretary pending a decision, the lease or interest of such party shall, if he is found in such proceedings not to be in violation of any provision of the act, be extended for a period of time equal to that between the date of filing of the waiver or the order of suspension, and the first day of the month following his dismissal from such proceedings, or the final decision, whichever is earlier. DEPARTMENT OF COMMERCE

OLEINE, S.A. AND EMILIO F. BORDIN

Supplemental Order Revoking Export Privileges

In the matter of the application of the Director, Investigation Staff, for an order revoking the probation provision contained in Part III of the order of April 3, 1958, Case No. 245 (23-F.R. 2283, April 8, 1958); Oleine, S. A. and Emilio F. Bordin. Respondents.

The respondents, Oleine, S. A. and Emilio F. Bordin, of Zurich, Switzerland, by order dated April 3, 1958, published April 3, 1958, 23 F.R. 2283, were denied all export privileges for so long as export controls were to be in effect, but the said denial had been curtailed to one year upon the "condition that the respondents comply in all respects with Isaidl order, and with all other requirements of the Export Control Act of 1949, as amended, and all regulations promul-

gated thereunder." The Director, Investigation Staff, Bureau of Foreign Commerce, has applied, on notice to the respondents, for a revocation of said conditional curtailment of denial, alleging that the respondents have breached said condition, and the respondents have responded thereto but have failed to make further response following the delivery to them of a bill of particulars of the charges as demanded by them. In accordance with the practice, the application was referred to the Compliance Commissioner, who has filed his report and has recommended that the application be granted.

Now, after reviewing and considering the entire record, consisting of the application, respondents' answer thereto, the particulars furnished to them, their failure thereafter to make further opposition, and the Compliance Commissioner's Report and Recommendation, I hereby find that:

1. Prior to the 3d day of April 1958, the date on which the order denying export privileges to the respondents was entered, the respondents entered into an arrangement with a certain individual in Zurich, Switzerland, under and pursuant to which that individual, using what appeared to be a normal commercial trade name, on their behalf made numerous purchases of goods from exporters in the United States, who, thereafter, on instructions from that individual, exported the goods so purchased to approvable destination in Europe;

2. The first known transaction by said individual on behalf of the respondents was negotiated while the proceeding which ultimately resulted in the order of April 3, 1958 was pending, and the said individual, on behalf of the respondents, engaged in several additional transactions involving exportations from the United States while the respondents were subject to the denials and prohibitions contained in the said order:

3. On about the 1st day of July, 1958, while respondents were subject to said order and prior to the time that their export privileges had been restored to them upon the condition therein stated, the said individual purchased, on behalf of the respondents, 13,300 kilograms of neoprene from an exporter in the United States and paid therefor the sum of \$15,588;

4. The said neoprene was packed into 585 bags, which were exported from the United States under a bill of lading directing that they be discharged at Rotterdam. Both the bill of lading and the commercial invoice for the goods were sent to said individual and to the financing bank at the time of exportation. Each had endorsed thereon a destination control notice prohibiting disposition of the neoprene to any Soviet Bloc destination:

5. Apart from any notice which the respondents might have had by reason of said endorsement on the documents, respondents had been well informed of United States Export Control Regulations, both during the pendency of the prior proceeding and by reason of the documents received by them at the conclusion thereof;

6. After the 585 bags of neoprene were discharged at the port of Rotterdam, the respondents caused them to be transshipped to various destinations in East Germany.

And, from the foregoing, I have concluded that Emilio F. Bordin and Oleme S.A., the respondents, in violation of the condition set forth in Part III of the order of April 3, 1958, under which they had been permitted to engage in and enjoy all export privileges allowed by United States laws and regulations. knowingly, while subject to the said order of April 3, 1958, (a) caused export control documents to be used for the exportation of goods from the United States for their account, and (b) ordered, purchased, sold, and disposed of goods exported from the United States; and, further in violation of said Part III and in violation also of §§ 381.6 and 381.8 of the Export Control Regulations, knowingly caused the said goods to be transshipped to East Germany.

It being necessary to achieve effective enforcement of the Export Control Act of 1949, as amended: It is hereby ordered:

I. Part III of the said order of April 3, 1958, be and the same hereby is revoked.

II. All outstanding validated export licenses in which the respondents, Oleine S.A. and Emilio F. Bordin, have any interest, direct or indirect, be and the same hereby are revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation.

III. Henceforth, and so long as exports from the United States shall be controlled, the respondents, Oleine S.A. and Emilio F. Bordin, be and they hereby are suspended from and denied all privileges of participating, directly or indirectly, in any manner or capacity, in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada, whether such exportation has heretofore or hereafter been completed. Without limitation of the generality of the foregoing denial of export privileges. participation in an exportation is deemed to include and prohibit participation by them, directly or indirectly, in any manner or capacity, (a) as parties or as representatives of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control document, (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States.

IV. Such denial of export privileges shall extend not only to the respondents, but also to any person, firm, corporation, or business organization with which they may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith.

V. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure to, and specific authorization from the Bureau of Foreign Commerce, shall, on behalf of or in any association with the respondents, directly or indirectly, in any manner or capacity, (a) apply for, obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity or (b) order, receive, buy, use, dispose of, finance, transport, or forward, any commodity heretofore or hereafter exported from the United States. WALKER TRUCKING CO.

Notice of Resumed Hearing

On June 3, 1959, a recess was extended in the above entitled matter until June 24, 1959, in order to permit certain intervenors to procure technical assistance in aid of preparation for cross examination of witnesses and for presentation of direct competent evidence. On June 11, 1959, the intervenors alleged that they could not be ready by June 24, 1959, and requested a 60 day postponement of the resumed hearings. This request was granted. Endeavors have been made periodically since August 1959 to select a date for the early resumption of hearings and the intervenors first reported that Saturday, October 10, 1959, was the only date that their technical assistant was available. This date was in conflict with_other schedules. Further inquiries of the intervenors have resulted in the indication given on December 8, 1959, that they expect to be ready after January 11, 1960.

Take notice that a resumed and contemplated final session for this proceeding to include all cross examination of witnesses, and for such direct evidence as intervenors may desire to adduce, will be convened on February 9, 1960, at 10:00 a.m. in the Common Pleas Courtroom, 111 Franklin Square, New Britain, Connecticut.

Issued: December 17, 1959, Germantown, Md.
